**OnScreen GPA Pro™** gives you the flexibility to calculate GPA to meet any requirements. Even with all its options, you'll find it easy to learn and use.

Calculate your GPA with just a tap using any of the methods you've defined.

Define groups of courses and grades however you want.

Easily calculate GPA for different combinations.

Keep the grade records and calculate the GPA for one person or many more.

Define as many custom GPA calculation methods as you need.

Easily access your GPA calculation methods.

Easily access your lists of courses with grades.

Motivate yourself with "what-if" scenarios.

Summary of how the **OnScreen GPA Pro™** controls provide maximum flexibility in GPA calculations.

The screenshot shows the 'My High School Grades' app interface. At the top, it displays 'Credits 140.0' and 'GPA 4.11'. Below this, there are sections for '4 GPA Calculation Methods' and '6 Terms or Years with Grades'. The 'Methods' section lists 'Weighted All' and 'Weighted Academic'. The 'Terms' section lists 'Freshman', 'Sophomore', 'Junior', 'Fall Senior', 'Best Case Spring Sr', and 'Worst Case Spring Sr', each with a toggle switch and an information icon. At the bottom, there is a navigation bar with icons for a lock, trash, '2X', a plus sign, and a magnifying glass. Callout boxes provide instructions for each of these elements.

Tap to calculate GPA with method indicated.

Highlighting shows this method was last used for GPA.

Both actual and hypothetical outcomes can be included.

Unlock this screen to allow deletion and reordering of methods and terms.

Create a new GPA method.

Go to definition of GPA method.

Create a new group of courses.

Go to list of courses and grades.

Use switches to include or exclude groups of courses.

Delete this GPA record file.

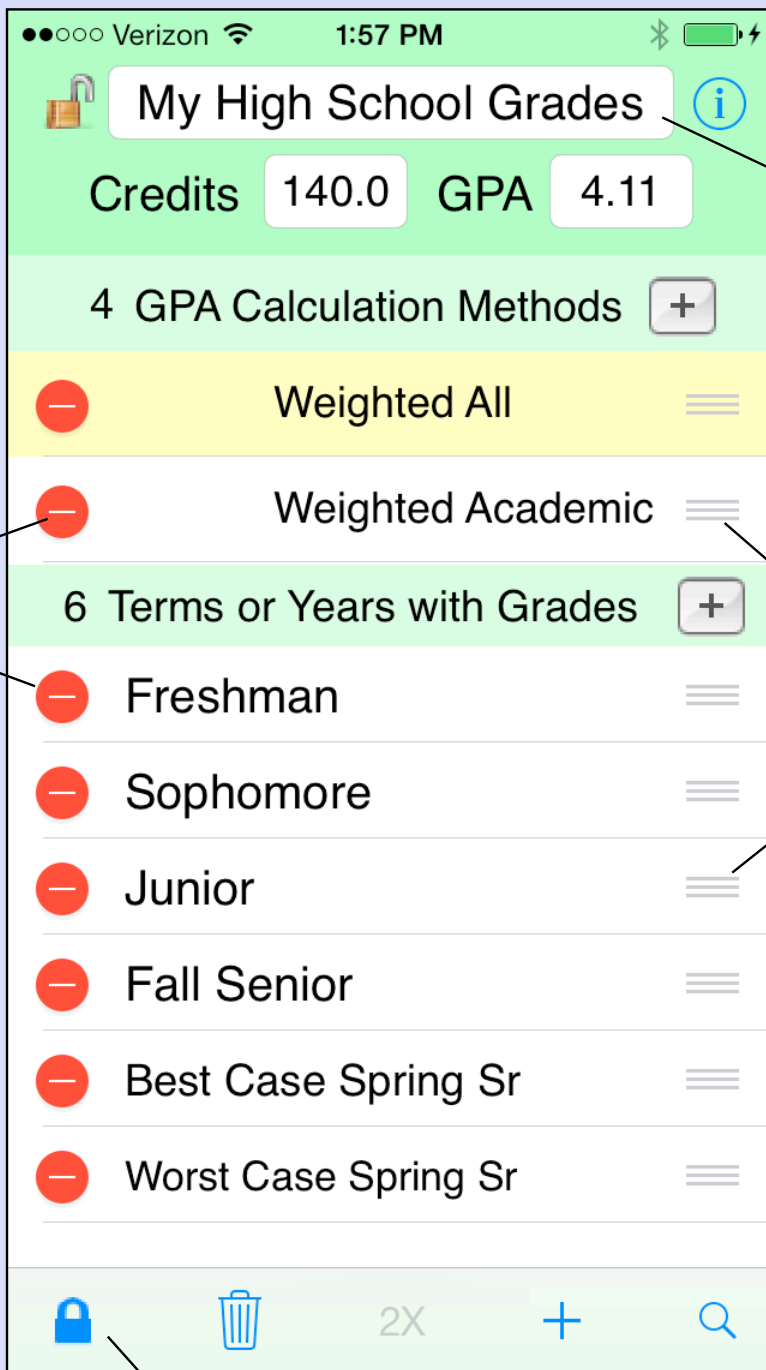

Make a copy of this GPA record file.

Make a new GPA record file.

Go to selectable list of all GPA record files.

Main screen of **OnScreen GPA Pro™** in unlocked (Edit) mode, allowing you to delete and reorder methods and terms and to rename the record.

Standard iPhone and iPod Touch methods are used.

The name of the record can be changed by typing a new one.

Tap a red button to delete a method or term.

Touch and slide these icons to reorder the lists.

Deleting a term deletes all of its courses as well.

Items you delete from the list are really gone, not just from the list.

Tap here to lock the lists again.

This shows how **OnScreen GPA Pro™** allows you to define a new course or modify an existing one.

Shows editing is enabled.

Type the number of credits here. Fractional credits are allowed.

Choose the type of course if you need weighting.

Tap to select A to F grade for the course. P is for Pass in a Pass/Fail course.

Cancel grade entry or change

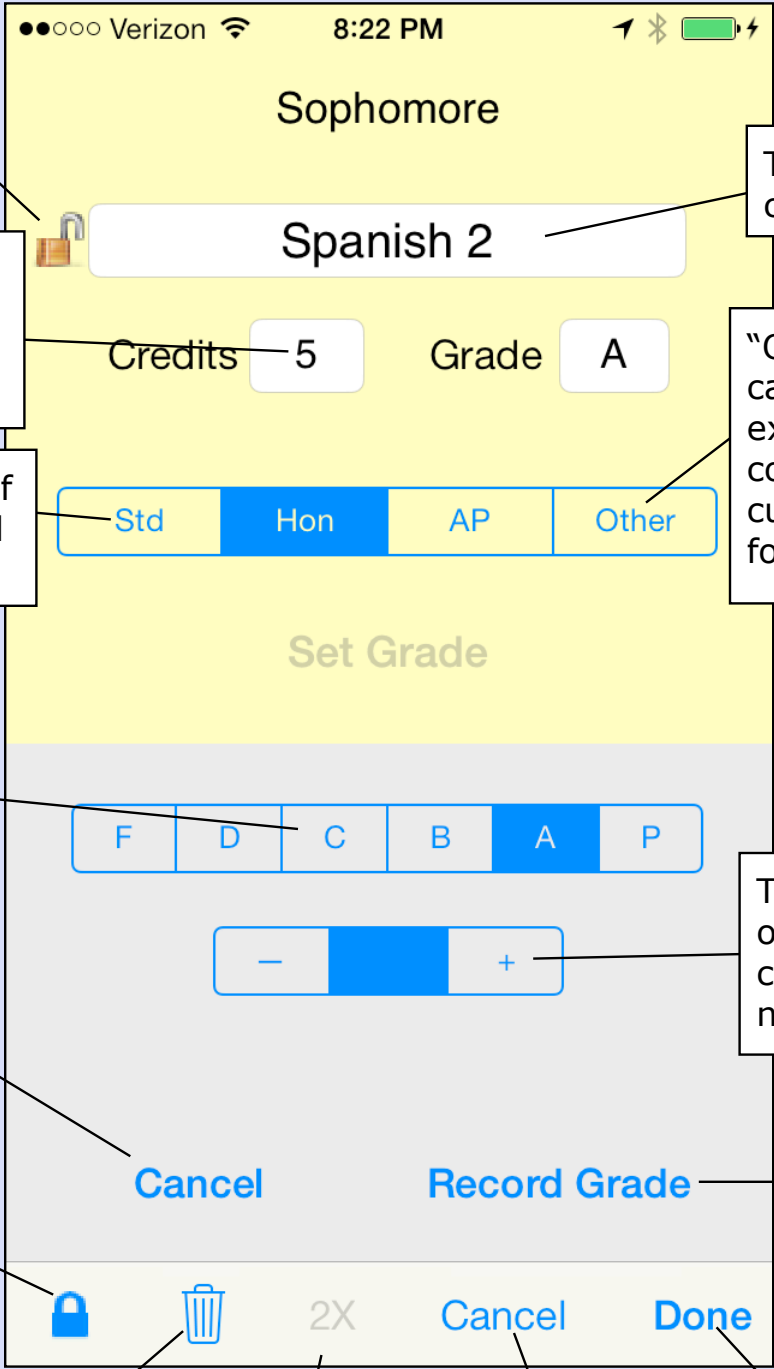

Lock this screen to prevent editing. When screen is locked this control will unlock it.

Delete this course.

Make a copy of this course.

Cancel new course or changes.

Save new course or changes.

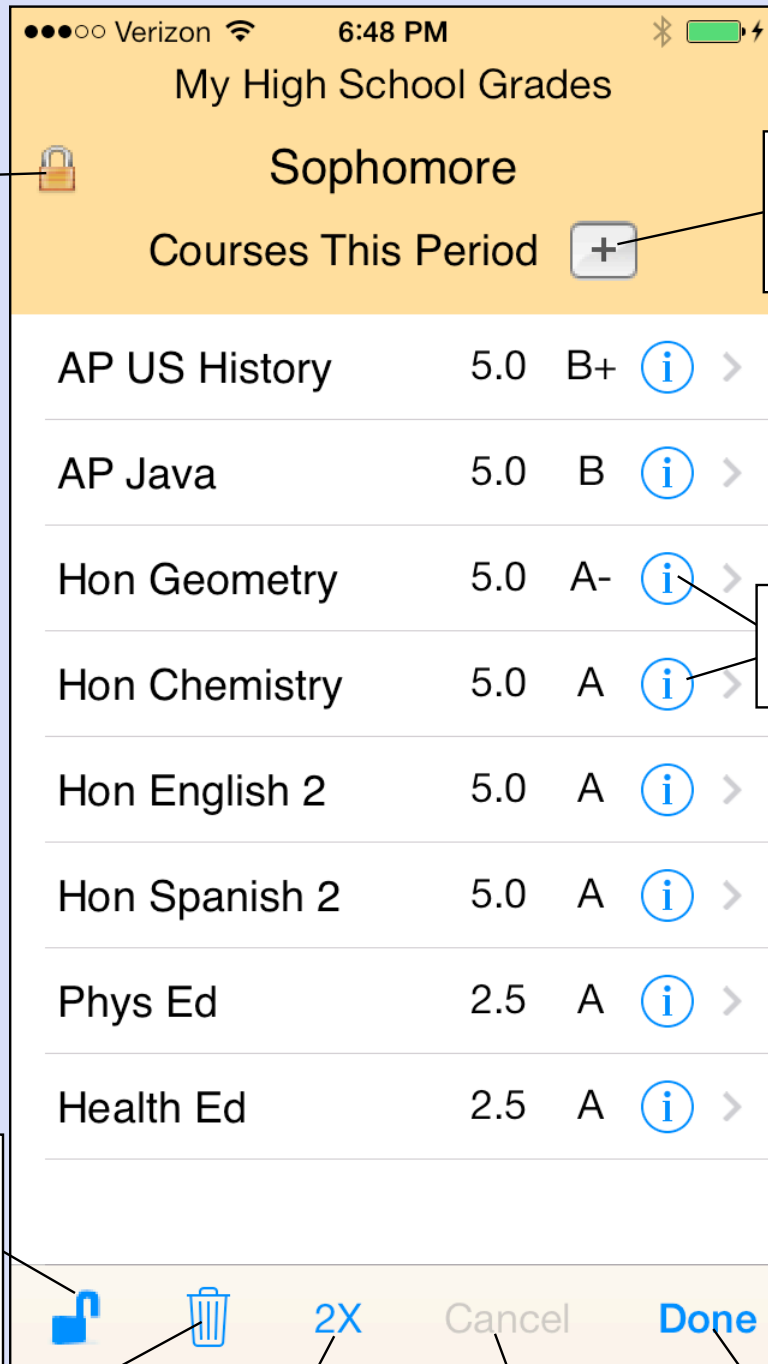

Type name of course here.

"Other" category can be used to exclude certain courses from a custom GPA formula.

Tap to select + or - to modify course grade if needed.

Record grade after you've made the selection.

You can access the full list of courses (and the course details) for every term you define with **OnScreen GPA Pro™**.

Shows editing is disabled.

Add another course to the term.

The list displays the name, number of credits, and grade for every course recorded for the term.

Go see details of a course.

When the screen is in unlocked (edit) mode, you can delete and reorder courses in the standard iPhone way.

Unlock this screen to allow editing. When screen is unlocked this control will lock it.

Delete this term and all its courses

Make a copy of this term.

Cancel new term or changes.

Return to main screen after saving any changes

Here is an example of a GPA calculation method you might define in **OnScreen GPA Pro™**. The ability to define multiple methods lets you match any school's preference.

Schools vary on the step size for + or - in calculating GPA. You choose.

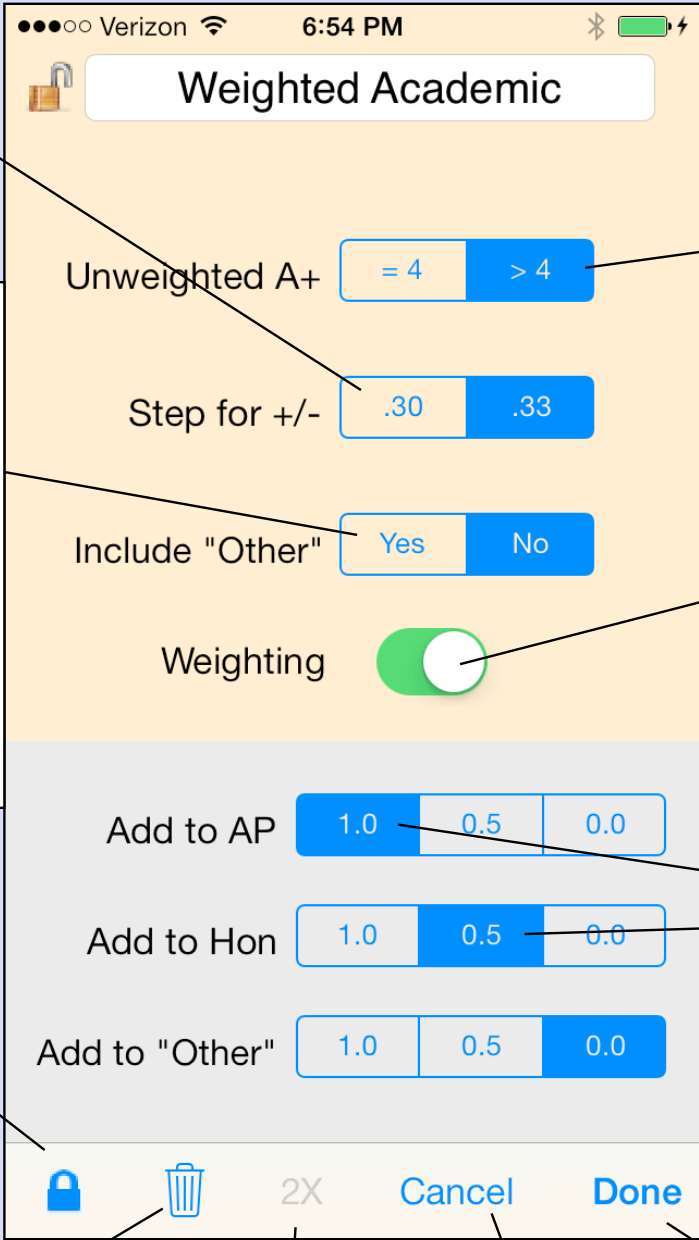

Some schools score more than 4.0 for an A+. You choose.

College admissions offices may exclude non-academic courses. Graduate schools may be only interested in upper division courses in your major. Define "other" courses as you wish and choose whether to include them.

Many high schools give extra grade points for honors and AP courses. You choose.

And you choose how many extra points to assign.

Unlock this screen to allow editing. When screen is unlocked this control will lock it.

Delete this GPA method.

Make a copy of this method.

Cancel new method or changes.

Return to main screen after saving any changes

You can use **OnScreen GPA Pro™** to keep the grade records and calculate the GPA for as many people as you wish (even if it's your job). And to make backup copies.
